MSA KARTING CIRCULAR 1/2010

156792/144

Karters are aware that the only brand of tyres homologated, and specified by the MSA Karting Commission, for South African karting in 2010 is Bridgestone.

However, in response to representations from Max Challenge Promotions/Zwartkops Kart Circuit/Ed Murray Racing that Mojo dry weather tyres be allowed for the Rotax Max classes of karting, Bridgestone/Autoquip has kindly agreed to relinquish the supply of dry weather tyres to these classes. In so doing, Bridgestone/Autoquip wishes it recorded that it distances itself from derogatory statements made by Ed Murray Racing in respect of the Bridgestone tyres currently homologated.

The only permitted dry weather tyre for the various Rotax Max classes of karting for 2010 will therefore, with immediate effect, be the Mojo D2. These tyres will be made available by Ed Murray Racing cc.

All other permitted tyres, including wet weather tyres for the Rotax Max classes, remain as per Article 23.2 b of the 2010 MSA Karting Regulations.
