

Tragedy for Luca Canderle

Luca Canderle had a magnificent start on went from 9th to 5th on the 1st lap. Then chaos ensued and Luca found himself on the business end of bumper kart wars.

Poor Luca bumped and shunted all the way around the bottom corner and eventually when found his way free, his kart was a complete mess.

Bent axle, chassis and damaged rims were the least of it. Luca however other than been very disappointed and upset is fine.

More news as I have it.
