

### Rest of Rok Class do well and Mini's Qualify

Ian Young (33) finished a consistent 8<sup>th</sup> in his final qualifying heat while the surprise of the day is Philip Viljoen (32) who put in a blinder to finish 9<sup>th</sup> just behind Young. It's Viljoen's best performance this week and hopefully he can improve as the day progresses.

The Mini Rok's are qualifying at the moment in their class Jordan Pepper qualified 8<sup>th</sup> in his heat, while Sheldon VD Linde also came from the back

and gave an outstanding performance to finish 9<sup>th</sup> just behind Pepper. VD Linde has been plagued by engine and carb problems this weekend; but in true South African spirit everyone has climbed in and provided assistance and expertise where they can.

The 2<sup>nd</sup> qualifying session of the Mini Rok's has been completed and both Aston Hare and Justin Allan finished in disappointing 20<sup>th</sup> and 14<sup>th</sup> respectively.

They are going to have to pull out all the stops to get to the front.
